

Webcreta Bargainprice Extension allows customers to bargain the price of the particular products through the products page. The best feature of this extension is that customer as well as admin can bargain on the price of any product.

### **Customer features : -**

- Customer can send the bargain price on any of the product.
- But customer must be logged in to bargain or it will show alert message to suggest to do login first.
- Customer can see his bargain request from My Account page.
- Customer can manage negotiation from My Account page.
- If admin sends final price customer can accept or reject by clicking on "Yes" or "No".
- Customer can easily check all his/her request status from My Account page.

### **Admin features : -**

- Admin receives request from customer and it will show grid.
- Admin can Approve or Reject customer request.
- If admin Approve request customer will receive coupon code via email and also in My Account page.
- If admin Reject request customer request status will change to "Rejected" on customer's My Account page.
- Admin can send final possible price to customer.
- If admin sends final possible price to customer customer will receive that price via email and also in My Account page where customer can accept that price or reject it by clicking "Yes" or "No".

### **Installation : -**

- Download/purchase the extension
- Unzip the files in a Magento directory
- If You have Custom Theme So Design Layout and Template File Copy to Your Theme
- Same as for skin/frontend/base/default/css files to Your Theme Skin File

## Extension Configuration :-

Go to Admin >> System >> Configuration >> Webcreta >> Bargainprice >> Here You Will See Enable/Disable options. Keep Enabled "Yes" to use Extension features.

Customer My Account page there will be a option "WEBCRETA BARGAIN PRICE" where customer can see all his/her request status.

## Admin Note :-

- Admin can not approve request which is rejected by customer.
- Admin can not reject already approved request.

## Note :-

**This Extension will not work for configurable product. But if you want we can implement it for you at minimum cost.**
